July 2021

# WELCOME...

## Welcome to the first update from the Teesworks Skills Academy.

The Teesworks Skills Academy was set up to help local people benefit from the jobs being created on the Teesworks site. We're linking people with training providers to gain the skills businesses need and with employers looking for staff as they come on-site.

In these updates, I'll be bringing you the latest news from the Skills Academy, including the progress we've been making in getting people into work, highlighting some of the courses coming up, and promoting job opportunities at Teesworks.

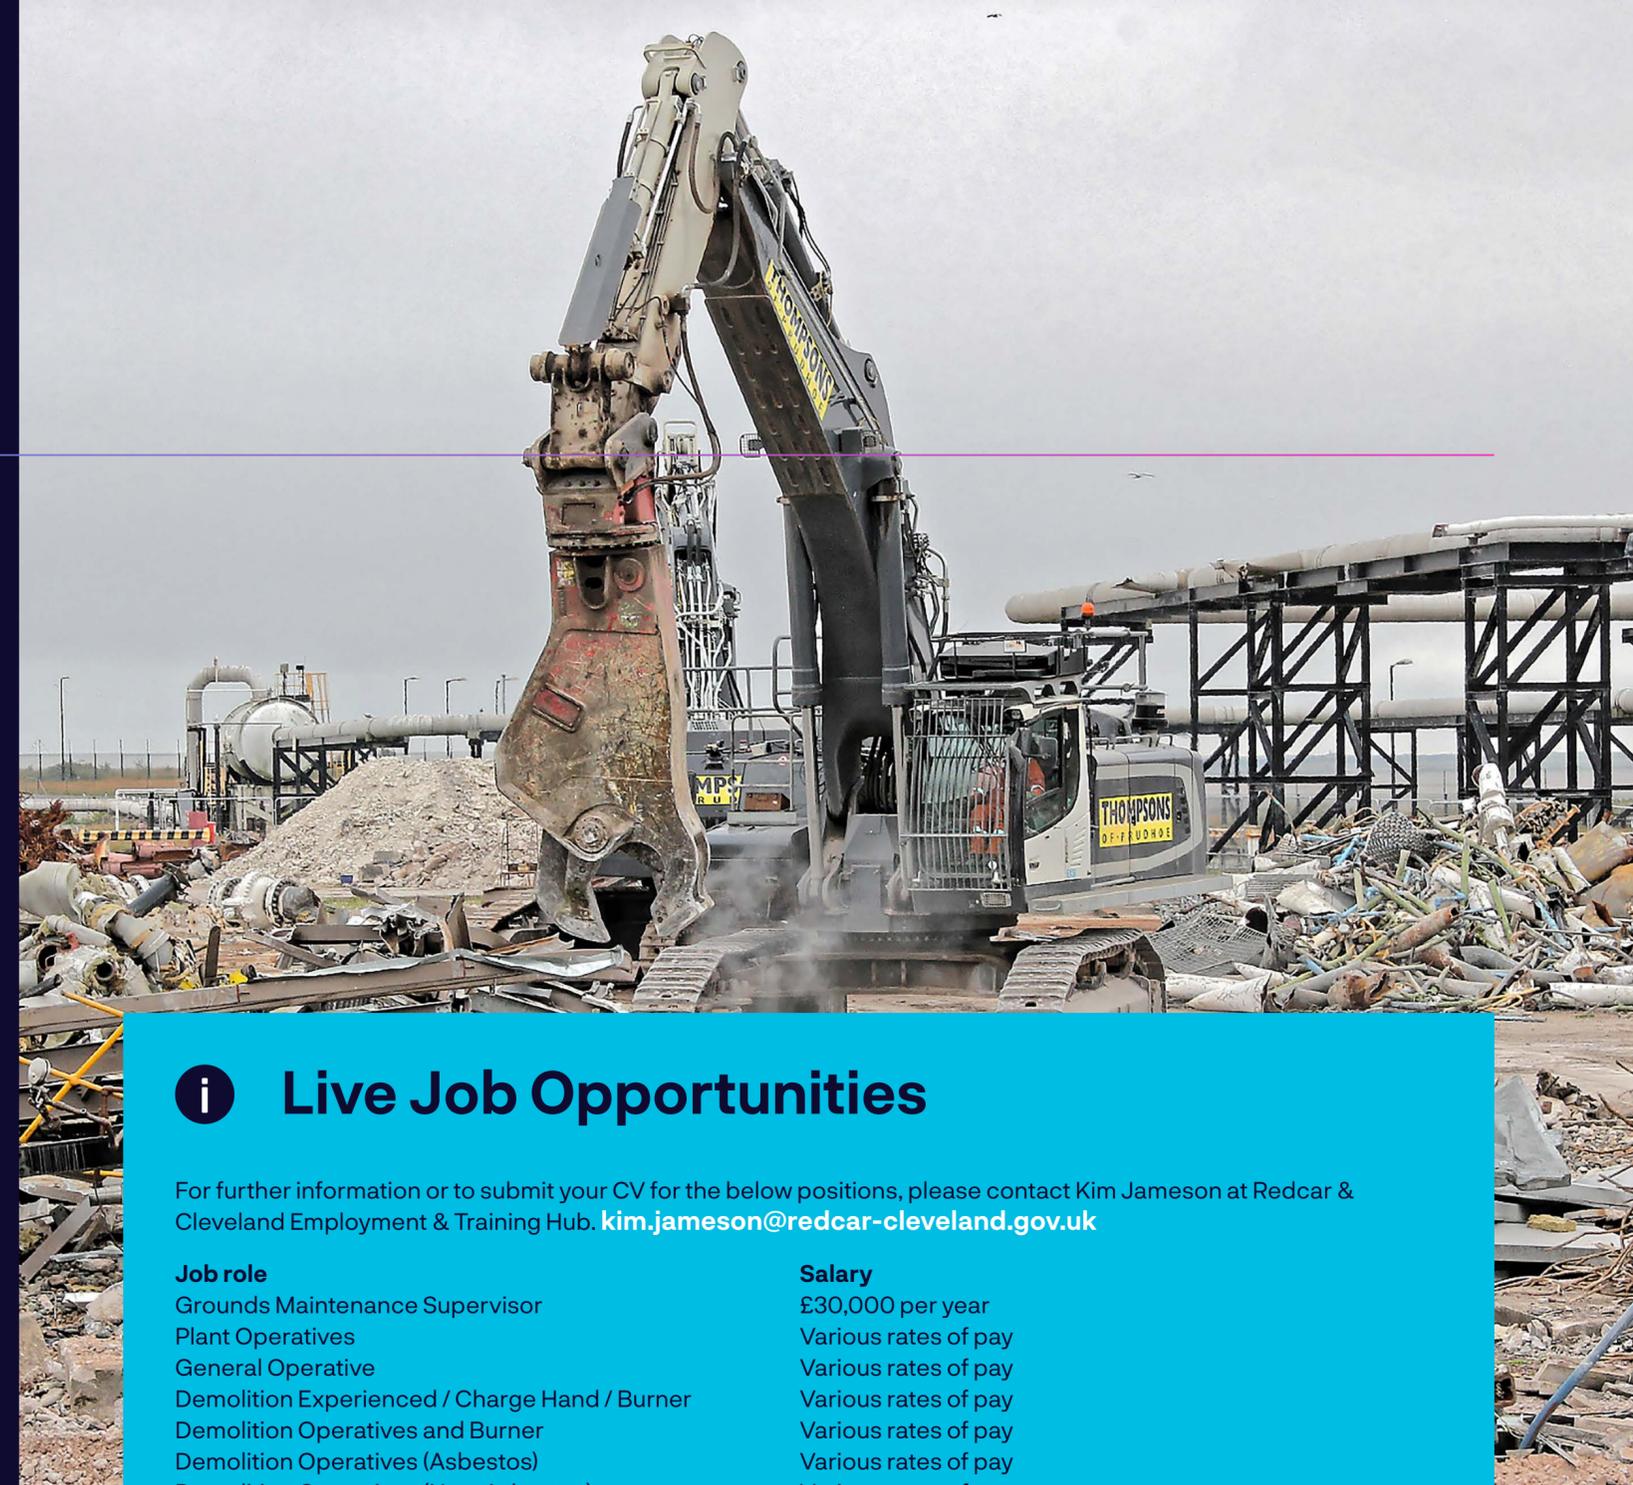

Since January, almost 3,000 people have been in touch with us, and more than 1,000 have registered their CVs. Working with more than 30 companies at the site and almost 130 organisations across the region, we've identified 1,200 training needs and supported almost 200

people through training. We've got off to a good start but there's so much more still to do and much more to come as activity on the Teesworks site gathers pace.

If you want to get these updates sent directly into your inbox, head over to the Teesworks website to register your details – you can find it at <http://orlo.uk/JbhYO>

**I look forward to hearing from you soon,**

**Graeme Wood**

# CASE STUDY - ANDREW & BRADLEY

## Andrew & Bradley Secure New Roles at WSG Industrial Services

**Andrew (pictured left) and Bradley will be the first recruits to benefit from a new Industrial Training course developed by Redcar and Cleveland College, in collaboration with WSG Industrial Services with the support from Teesworks Skills Academy. The course has been designed to provide the specific skills required to work on the Teesworks site.**

Bradley said: 'I cannot wait to get started with the training, this will be the first time a company/college are willing to invest in me.'

Andrew said: 'I am over the moon to have been given this opportunity and intend to

grasp it with both hands.' The Teesworks Skills Academy strives to invest in people and equip them with the skills required for the Teesworks site.

WSG Industrial Services has been able to recruit both Andrew and Bradley to support their ambitious growth strategy and are looking to hire several Industrial Services Trainees in the future.

Mike Lee, Director of WSG Industrial Services said: 'Both Andrew and Bradley are new to the company and are a great example of the next generation of Industrial Services Technicians that we are looking to develop.'

# CASE STUDY - TIM

## Teesworks Skills Academy Leads to Training and Employment for Tim

**Tim has a history of working on the railways, renewing track. After registering with the Teesworks Skills Academy, he was connected with Certify Staffing Solutions on the Teesworks site and has been employed as an Excavator operator for TCC Plant Hire since April, utilising the Excavator Licence he gained more than a year ago.**

Tom Carr, TCC Plant Hire said, "I am delighted with Tim, he has proved to be an excellent worker and over the last 4 weeks I have seen him use a range of

new attachments on the machine. I am confident that Tim is going to be a long term addition to the TCC Plant Hire team. The Teesworks Skills Academy and Certify have been excellent in sourcing us reliable local labour and I am proud to be able to provide jobs within our community."

In just over a month, Tim registered with the Teesworks Skills Academy, shared details of his skillset and secured new employment as a direct result.
